

Future Factories Summit Saudi 2021
25th & 26th October 2021 | Digital Conference

DAY 1 | 25th OCTOBER 2021, MONDAY

- 10:00 AM WELCOME NOTE
- 10:05 AM OPENING KEYNOTE - GUEST OF HONOR
- 10:15 AM INDUSTRY 4.0 or 5.0? WHAT'S THE DIFFERENCE AND HOW DO WE KNOW WHERE WE ARE?
- Why we need another industrial revolution
 - How we connect the humans and machines
 - Ways you can adapt to take advantage
- 10:30 AM Panel Discussion : CIO Panel : Manufacturing CIOs – Adapting to Smart Manufacturing
- How to start the smart-manufacturing journey: creating a digital backbone
 - Exploring how digital transformation is helping companies move from mass production to customized production
 - Digital servitization: Crossing the perspectives of digitization and servitization
- 11:00 AM NETWORKING BREAK, MEETINGS & CONTESTS
- 11:15 AM 5G FOR MANUFACTURING & INDUSTRIAL AUTOMATION
- How 5G will empower the Smart factories of the future
 - Insights for designing the 5G IoT business strategy
 - Importance of driving futuristic factories with connected devices and interoperable environments
- 11:30 AM Q&A | CLOSING REMARKS
- 11:45 AM SCHEDULED NETWORKING MEETINGS

DAY 2 | 26th OCTOBER 2021, Tuesday

10:00 AM WELCOME NOTE

10:05 AM OPENING KEYNOTE – INTERNATIONAL GUEST SPEAKER

10:15 AM THE RISING IMPORTANCE OF NEW-GEN MANUFACTURING ROBOTS & AUTOMATION

- COBOTS - Forging winning partnerships with man & machine
- How 'Robot-ready' are Manufacturers in the Saudi Arabia?
- Exploring the new concept of 'lights-out' – how will advanced automation impact the manufacturing industry?

10:30 AM Panel Discussion : Supply Chain Resilience in Post Covid World – Effective and Efficient Supply Chain

- Reimagining the design of supply chain
- Impact of effective supply chain to gain more productivity
- How to improve customer service and satisfaction using best practices

11:00 AM NETWORKING BREAK, MEETINGS & CONTESTS

11:15 AM Artificial Intelligence in Manufacturing: The New Fuel for Growth

- Unlocking the value of manufacturing data in the Industry 4.0 world.
- How predictive AI will power the factory of the future?
- What are the future AI trends and/or developments manufacturers should be aware of?

11:30 AM Q&A | CLOSING REMARKS

11:45 AM SCHEDULED NETWORKING MEETINGS
